

## **Responses to Representations made on the Pre-submission Draft Stratford Neighbourhood Development Plan**

### **Policy TC12**

Representations: Total received 9

Number in Support: 5

### **Summary of Representations:**

Responses were generally supportive but some resistance to the concept of a conference centre. However, this policy designates a site. It is not a project for the plan based upon views expressed by the community. It is included because the District Council have indicated a conference centre might be provided in the town

### **Modification Proposed:**

The policy will be renumbered policy TC11. Only minor modifications as noted in the responses below or for clarity including expanding the policy to include the Bridgeway Area and Rother Triangle.

### Individual Representations and Steering Group Responses

Code Number	Full Name	Organisation represented (where applicable)	Policy TC12	Neighbourhood Plan Steering Group Response
-------------	-----------	---	-------------	--

Statutory Consultees' Comments				
1001	Stratford District Council	Statutory Consultee	It may be preferable to refer to the Bridgeway area generally.	Will be amended

Agents and Developers' Comments				
502	Stratforward BID		We generally support this policy.	Supportive

Residents' Comments				
038	Amanda Waters		Support	Supportive
057	Trevor Honychurch		Agree but is not the car parking & coach parking well used? If we lose that where do the visitors & leisure centre patron's park?	Supportive. Parking policy including continuous review of supply is within the scope of the parking advisory group. Parking will not be lost as a result of this policy

				without considering the need for replacement
095	Eric Ward		Strongly agree	Supportive
202	Mr Mark Rowlands		I do not support this proposal. The town does not need a conference centre to bring additional traffic chaos to the town when there is already a lot of capacity for conferences at the large Stratford hotels.	See general comment above
217	Karen Wild	Stratforward Business Improvement District Ltd	We generally support this policy.	Supportive
226	Debs Campton		Developing a conference centre near the Leisure Centre will further exacerbate congestion and gridlock with additional traffic on the Warwick Road and Birmingham Road - roads already overburdened with traffic. A site off the A46 would be a better site and prevent further traffic passing through the Town Centre.	This policy only designates a site. The decision is for the district council or private developer in the light of prevailing assessments of need for a leisure centre
228	John Campton		No conference centre for Town Centre - already heaving	See Response above to Rep 226
