

Responses to Representations made on the Pre-submission Draft Stratford Neighbourhood Development Plan

Policy CLW12

Representations:

Total received: 9

Number in Support: 7

Number neutral or outside scope of NDP: 2

Number of objections: 0

Summary of Representations:

Generally supportive.

Modification Proposed:

This policy will be moved to the Infrastructure section (to be renumbered Policy INF4). Only the minor modifications noted in the responses below and any needed to remain consistent with the Core Strategy and the NPPF are proposed.

Individual Representations and Steering Group Responses

Code Number	Full Name	Organisation represented (where applicable)	Policy CLW12	Neighbourhood Plan Steering Group Response
Residents' Comments				
028	Gordon Harrington		Promoting new health care provision is critically important with the older age profile and planned population growth.	Supportive.
056	Martyn Luscombe	Stratford Voice	New health care facilities will be needed, but this policy is vague and could potentially support large and inappropriate structures in or near the town centre, particularly in view of the trend towards larger GP practices. Specific site(s) should be identified.	Noted. However, not in a position to identify sites until funding available
057	Trevor Honychurch		Agree	Supportive.
095	Eric Ward		Conflate with CLW11 ?	Not considered to be a conflict as CLW11 relates to protection and expansion while this policy relates to new provision
125	Mandy Last		There shouldn't be any more houses until there is at least another Drs surgery as the ones we have now are struggling to cope also as a tourist and growing town we should have a proper A & E dept.	Supportive. A&E department not in gift of NDP.
153	Janick McOwan		I agree additional provisions for GP surgeries, dentists, opticians... should be made available south of the river and in other areas wherever needed.	Supportive.

202	Mr Mark Rowlands		Any new housing developments should carry an obligation to provide appropriate community facilities & medical facilities. These should be at a defined level of financial contribution according to the value of the development	Supportive.
226	Debs Campton		New healthcare provision vital to keep pace with the expanding population	Supportive.
228	John Campton		Yes	Supportive.
